1 Preface

Task 8.1 Development of a Dissemination Plan

...

The project's ambition dissemination activities and in particular the intended launch of a web page of the project will foster this objective. By the end of the project a significant number of organizations outside the project from all relevant parts of the world should have visited this web site and already be aware of the advantage of the project.

....

All the public material (deliverables, publications, etc.) will be available on the CETIEB web site. CETIEB dissemination plan includes:

- Project web site containing all public material.

....

An important part within Task 8.1 is the set-up of a **project website** containing all public material and information about the CETIEB project.

D8.1 refers only to the public part of the website, whereas the access controlled internal part is reported in D1.1.

2 Project Website

2.1 Public part

The website was generated by the use of Windows SharePoint [1] and is running at the server of MPA University of Stuttgart under <http://cetieb.eu> [2]. It is reachable as well by www.cetieb.eu.
